

## Piling works at Barak Beacon, Port Melbourne

### Works notice: October 2024 - March 2025

Homes Victoria, in partnership with Building Communities, is redeveloping the Barak Beacon, Port Melbourne housing site to provide more Victorians with a secure place to call home.

The project will deliver 408 modern homes that are a mix of social, affordable, market rental and specialist disability accommodation. The builder at the site is ICON.

### Main construction commences at Barak Beacon

Piling works will start at the Barak Beacon housing site in early October and continue through to March 2025.

Piling rigs are large machines used in construction to create deep foundations for buildings and structures. They drill into the ground and insert strong concrete piles to support the weight of the future buildings.

### What to expect during piling works

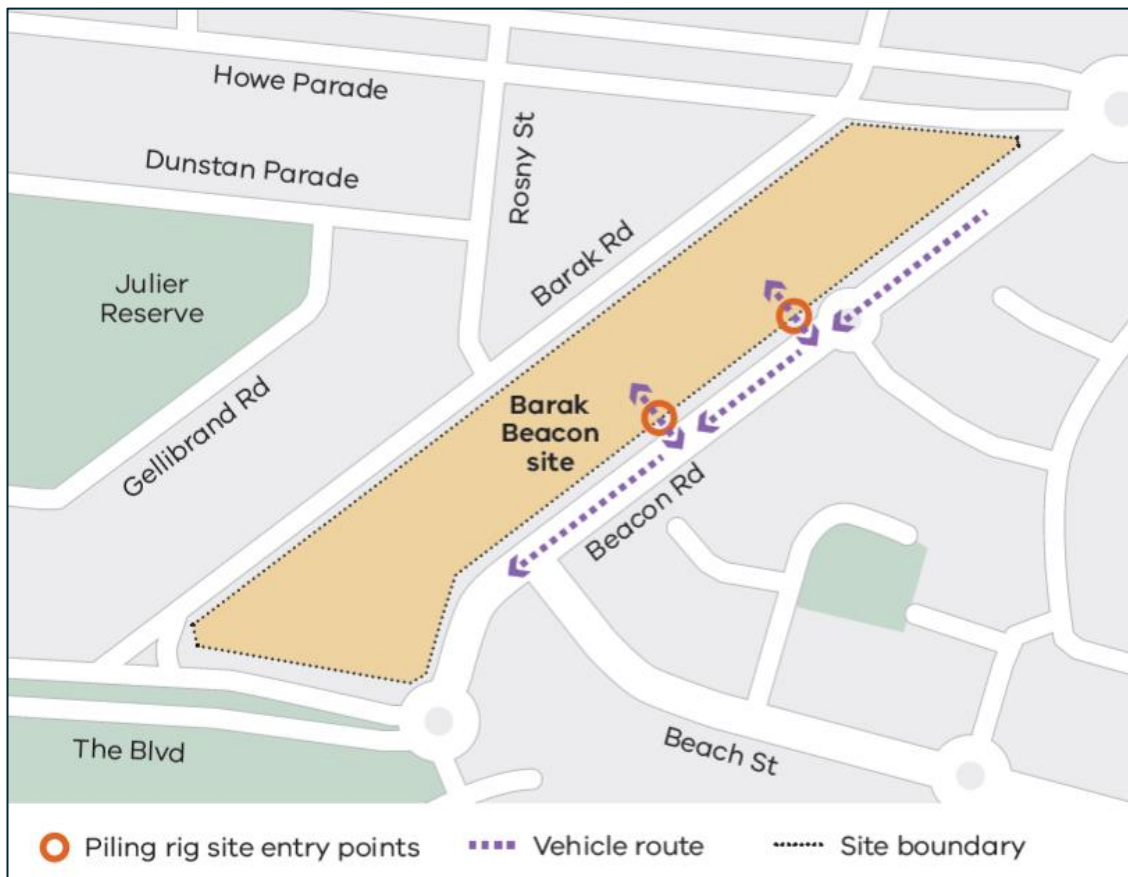

Multiple piling rigs will arrive by truck over several mornings between early October 2024 and November 2024. Trucks will access the site via the gates on Beacon Road. See map over the page for details.

When the piling rigs are operating, there will be some noise created by the large machinery as well as trucks moving in and out of the site from Beacon Road.

There will be traffic management in place to direct vehicles and pedestrians while this work is carried out.

We know that living near a construction site is not easy and we want to thank residents in Port Melbourne for their understanding while we revitalise the Barak Beacon housing site.
